

Aspirations

Volunteering Opportunities

The Aspirations programme provides opportunities for employee-volunteers to inspire secondary school pupils about possible futures, thereby motivating them to aim higher and work harder in school.

Project Dare

We are looking for members to support schools in the Autumn term to deliver a Project Dare session. We hope that by this time employee-volunteers will be able to go back into schools. However, if this is not possible, we will look to deliver something virtually. Traditionally this has been held across a term or over three weeks. We have missed running these sessions this year and it would be great to have you involved in the new academic term.

STEM for Girls

We're delighted to be involved in the FutureHY STEM for Girls conference taking place between 5 and 6 July for schools across North Yorkshire. We're currently asking for employee-volunteers in STEM related roles to record a short video highlighting their role and their experiences to help inspire future generations.
